SOFTWARE ENGINEERING

ICT2242

Conducted by

Chanduni Gamage

Department of ICT

Faculty of Technology

University of Ruhuna

INTRODUCTION

- Course Unit
  - ✓ **Software Engineering ICT2242**
- No of Credits
  - ✓ **2**
- No of Lecture Hours
  - ✓ **30hrs**

MODULE OBJECTIVE

- To explain the fundamental concepts applying in software development life cycle
- To determine appropriate software process model according to a systems development project

COURSE CONTENT

- Introduction to Software Engineering
- Activities and characteristics Software Processes
- Software Process Models
- Requirement Analysis and Specification
- Software Design
- Building software
- Testing software
- System Implementation
- Software Maintenance and Evolution
- Software quality Management
- Scrum development

LEARNING OUTCOMES

After successfully completing this course unit you should be able to:

- Describe Software Development Lifecycle.
- Explain features of different software process models.
- Apply the most suitable process model according to a real scenario.
- Design software products with more flexible and efficient principles.
- Explain required testing methodologies for different types of projects.

REFERENCES

- Pressman, R., Software Engineering: A Practitioner's Approach, 7/e
- Software Engineering- Ian Sommerville, 9/e

EVALUATION

- Final Theory Examination: 70%

- Continuous Assessment : 30%
  - Quiz : 10%
  - Mini Project: 20%

CA ROADMAP

Week 1	**Announcement of the Assignment**
Week 2	Assignment: Group Preparation
Week 3	
Week 4	Quiz 1 (MCQ - Content up to Week 3)
Week 5	Assignment: Proposal Submission – Hard Copy
Week 6	
Week 7	Quiz 2 (MCQ - Content of Week 4 to Week 6)
Week 8	Assignment: Interim Report Submission – Hard Copy
Week 9	
Week 10	
Week 11	Quiz 3 (MCQ - Content of Week 7 to Week 10)
Week 12	Assignment: Final Report Submission – Hard Copy
Week 13	Assignment: Group Presentations

IMPORTANT....

- 80% Attendance for lecture and Practical are compulsory.
- 50% for continuous assessments is required to pass the module

QUESTIONS…?
